CSE 1311 - C++ Programming for Engineers  
Brandon K. Thomas  
Lab 4a: PresFunc
```

Goal(s): Build a presidents() function.  
Build a presidents() function that prints out the names of the first 7 Presidents of the United States, each on a separate line. Have your main function call the presidents() function.  
Call your project "PresFunc", and store it on your flash drive.
